Built for schools in Bangladesh, বাংলা and English

One register for the whole school.

Attendance, results, fees and notices on one mobile-first platform. Teachers mark a section in under a minute, guardians pay with bKash, and the owner sees the day's collection before going home.

every core task works on a small phone

100%
of money and mark changes kept in the audit log

Why schools switch

Registers and spreadsheets cost more than they seem

Most of a school office's week goes on copying, adding up and chasing. That work is what Khata takes over.

Today	With Khata
✕ Fees collected over the counter and reconciled by hand	✓ Guardians pay online, receipts and reminders go out on their own
✕ Results tabulated in Excel, with GPA errors and late report cards	✓ Marks become GPA as they are typed, report cards print by section
✕ Guardians hear about an absence days later, if at all	✓ An absence SMS reaches the guardian the same morning
✕ Notices scattered across SMS, Facebook groups and paper	✓ One notice reaches the right class by app, SMS and email
✕ Records on one office PC, never backed up	✓ Backed up daily and open from any phone, anywhere

How it works

A Monday at Shapla Model School

Five moments from one school day, and who they save time for.

7:50
Class teacher

Attendance is taken before the first bell

The roster opens with everyone present. The teacher taps the two or three exceptions and saves. With a weak signal it saves on the phone and syncs later.

Class 6 A saved. 40 present, 1 absent, 1 late.

8:30

The principal sees who hasn't submitted

4 of 38 sections not submitted

Principal

Today's attendance by class, and the sections still waiting, without walking the corridors.

Class 3 B, Class 7 A, Class 9 C, Class 10 B

10:00

Guardian

Guardians hear about an absence the same morning

One SMS per absent child, sent at the time the school chooses, in Bangla or English. If the child turns up and is marked present first, nothing is sent.

SHAPLA MODEL

প্রিয় অভিভাবক, রাফি আহমেদ (৬ষ্ঠ ক, রোল ৭) আজ ১৯ অক্টোবর বিদ্যালয়ে অনুপস্থিত।

13:15

Guardian

A parent pays for two children in one go

October tuition for both children, with the sibling discount already applied, paid with bKash. The receipt arrives at once and the dues update for the accountant.

Receipt 004817, paid by bKash

Nusrat, Class 8 B	৳2,400
Tanvir, Class 4 A	৳1,800
Sibling discount	−৳180
Paid	**৳4,020**

17:00

Owner

The owner checks the day's collection

Collected today, by channel and by collector, with what is still due. Every counter receipt is numbered in order, so the cash in the drawer has to match.

Collected today **৳2,52,740**

Counter	৳1,42,500
bKash	৳86,240
Bank	৳24,000

One platform, every role

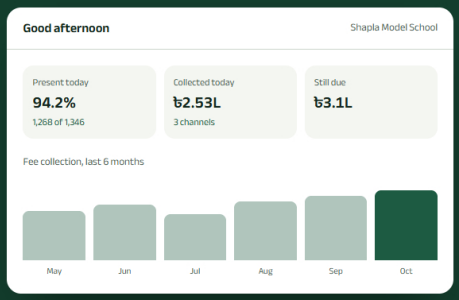

Everyone sees what they need, and nothing they don't

Roles decide what each person can see and change. Start from the standard roles, or copy one and adjust it.

Owners | Principals | Teachers | Accountants | Guardians

The whole school's numbers, on your phone

- Today's collection by channel, and what is still due
- Attendance and enrolment trends, by class
- Every refund, waiver and edited mark on record

Modules

Everything the school runs on, already connected

A payment updates the dues list, an absence reaches the guardian, a published result lands in the portal. No re-typing between systems.

Students and guardians

Profiles, guardians, documents and enrolment, imported from your existing Excel list.

Attendance

Day-wise or period-wise, marked on a phone, with the same-morning absence alerts.

Exams and results

GPA 5.0 and other scales, mark entry, tabulation, merit lists and report cards.

Fees and payments

Fee heads, discounts, monthly invoices, counter and bKash payments, dues.

Notices and SMS

Notices to the school, a class or a section, by app, SMS and email.

Staff directory

Teachers and staff, their departments, roles and what each can see.

Coming next · Homework · HR and payroll · Timetable · Library · Transport · Hostel

Exams and results

Results three days after the last exam, not three weeks

Teachers enter CQ, MCQ and practical marks in a grid, and the grade appears as they type. Tabulation, GPA, merit position and failed subjects are worked out for the whole class at once.

The board's rules are built in. An F in any compulsory subject makes the result F, the 4th subject adds its points above 2.0, and each component has its own pass mark. Schools on GPA 4.0, Cambridge grades or a madrasa scheme pick their own scale.

1	**Draft**	Subject teacher enters marks
2	**Submitted**	Sent for checking
3	**Approved**	Principal approves, marks lock
4	**Published**	Guardians notified, report cards ready

After approval, only the principal can reopen marks, and the old and new values are both kept.

Tahmid Hasan, Class 9 Science — Half-yearly exam 2026

Subject	CQ	MCQ	Total	Grade	Point
Bangla	52	26	78	A	4.00
English	85	–	85	A+	5.00
Mathematics	64	28	92	A+	5.00
Physics	49	25	74	A	4.00
Chemistry	55	26	81	A+	5.00
Biology	44	24	68	A-	3.50
ICT	30	58	88	A+	5.00
Higher Mathematics 4th subject, adds 2.00	51	25	76	A	4.00
GPA					**4.79**

Made for Bangladesh

Built for how schools here actually work

Global ERPs weren't designed for MFS payments, board-exam grading or Bangla SMS. This one was.

আপনার স্কুল, আপনার ভাষায়।

bKash and cards

Guardians pay from their phone. Payments are matched to invoices automatically, and receipts go out at once.

Board rules, built in

GPA 5.0, the 4th-subject bonus and per-component pass marks, plus NCTB class and subject templates.

বাংলা and English

Every screen, SMS, receipt and report card in both languages. Each person picks their own.

Light on data

Pages load on a 3G connection, and attendance taken offline syncs when the phone reconnects.

Self-serve setup

From sign-up to first roll call in a day

A school of 500 students can finish setup and import everyone in about an hour. Skip any step and come back to it later.

01

Sign up

Your school name, email and an address like shapla.khata.app. No sales call.

02

Set up your year

Classes, sections and subjects from the NCTB, Cambridge or madrasa templates.

03

Import students

Upload your Excel list. Bad rows are flagged before anything is saved.

04

Take attendance

Invite teachers by email or phone. They can mark their first roll call the same day.

Your school's records stay your school's

Fees and results are what guardians question most. Neither can change without anyone knowing.

Each school kept apart
Checked by the application and again by the database. No school can see another's data.

Every change on record
Edited marks, attendance corrections and refunds keep the old value, who changed it and why.

Receipts never rewritten
Numbered in order with no gaps. A cancelled receipt needs a reason and stays visible.

Your data, exportable
Export to Excel and PDF at any time, and for 90 days after you leave.

Pricing

Pay only for the students you have

One price per active student each month. Pay for the year and get two months free. Every school starts with 30 days of Standard, no card needed.

Free
Up to 100 students

৳0
free, with no time limit

To try it, or for a very small school

- Students and staff directory
- Daily attendance
- Notices and email
- Exams and results

Premium
Large schools

৳55
per student a month

Everything in Standard, plus

- Two-factor sign-in for admins and accountants
- Priority support
- Transport, multi-branch and analytics as they arrive

Start free trial

Prices are in taka, with a small monthly minimum. SMS credits are prepaid. Add-ons for transport, hostel and homework can be bought on any plan once they launch.

Questions

What principals ask us

- How long does it take to get started?
- Do teachers need a computer?
- How do guardians pay fees online?
- We keep our student list in Excel. Do we have to type it again?
- We follow Cambridge, or we are a madrasa. Will the grading fit?
- Is it available in Bangla?
- What happens to our data if we stop paying?

Start with one section

Your school's name

tomorrow morning

30 days of Standard, free, with no card. Bring the rest of the school on when you're ready.
