• Built for schools in Bangladesh, বাংলা and English

One register for the whole school.

Attendance, results, fees and notices on one mobile-first platform. Teachers mark a section in under a minute, guardians see their child's day in the portal, and the owner sees the day's collection before going home.

≤ 3 days
to publish results after the last exam

360 px
every core task works on a small phone

100%
of money and mark changes kept in the audit log

Why schools switch

Registers and spreadsheets cost more than they seem

Most of a school office's week goes on copying, adding up and chasing. That work is what Kampasy takes over.

Today	With Kampasy
✕ Fees collected over the counter and reconciled by hand	✓ Monthly invoices, numbered receipts and a dues list that updates itself
✕ Results tabulated in Excel, with GPA errors and late report cards	✓ Marks become GPA as they are typed, and report cards print by section
✕ Guardians hear about an absence days later, if at all	✓ Guardians see the absence in the portal the same morning
✕ Notices scattered across SMS, Facebook groups and paper	✓ One notice reaches the right class in the portal and by email
✕ Records on one office PC, open only from that desk	✓ Stored online and open from any phone, by the people allowed to see them

How it works

A Monday at Shapla Model School

Five moments from one school day, and who they save time for.

7:50
Class teacher

Attendance is taken before the first bell
The roster opens with everyone present. The teacher taps the two or three exceptions and saves, from the phone in their hand.

Class 6 A saved. 39 present, 1 absent, 2 late.

8:30
Principal

The principal sees who hasn't submitted
Today's attendance by class, and the sections still waiting, without walking the corridors.

4 of 38 sections not submitted
Class 3 B, Class 7 A, Class 9 C, Class 10 B

10:00
Guardian

Guardians know about an absence the same morning

Rafi's absence shows up in his guardian's portal, in Bangla or English. If he turns up late and is marked in, the record updates.

প্রিয় অভিভাবক, রাফি আহমেদ (৬ষ্ঠ ক, রোল ৭) আজ ১৯ অক্টোবর বিদ্যালয়ে অনুপস্থিত।

13:15
Accountant

A parent pays for two children in one go

October tuition for both children at the counter, with the sibling discount already applied. One numbered receipt, and the dues list updates at once.

Receipt 004817, paid at the counter

Nusrat, Class 8 B	৳2,400
Tanvir, Class 4 A	৳1,800
Sibling discount	−৳180
Paid	**৳4,020**

17:00
Owner

The owner checks the day's collection

Collected today by counter and collector, with what is still due. Every receipt is numbered in order, so the cash in the drawer has to match.

Collected today	**৳2,52,740**
Counter 1, Rahima	৳1,42,500
Counter 2, Jalal	৳86,240
Bank deposit slips	৳24,000

One platform, every role

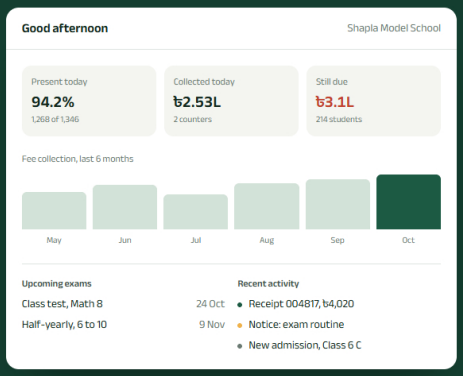

Everyone sees what they need, and nothing they don't

Roles decide what each person can see and change. Start from the standard roles, or copy one and adjust it.

Owners | Principals | Teachers | Accountants | Students | Guardians

The whole school's numbers, on your phone

- Today's attendance, collection and dues the moment you sign in
- Fee collection by month, and the exams coming up
- Every payment, admission and published notice as it happens

Modules

Everything the school runs on, already connected

A payment updates the dues list, an absence reaches the guardian, a published result lands in the portal. No re-typing between systems.

Students and guardians
Profiles, guardians, documents and enrolment, imported from your existing Excel list.

Attendance
Marked on a phone in under a minute, with holidays and student leave in the same place.

Exams and results
GPA 5.0 and other scales, mark entry, tabulation, merit positions and report cards.

Fees and receipts
Fee heads, discounts, monthly invoices, counter collection, numbered receipts and dues.

Guardian portal
Guardians and students see attendance, results, dues and notices on the web.

Notices
Notices to the whole school, a class or a section, in the portal and by email.

Staff directory
Teachers and staff with departments and designations, and the classes they teach.

Reports
Attendance registers, result sheets, and collection and dues reports, ready to print.

Exams and results

Results days after the last exam, not weeks

Teachers enter CQ, MCQ and practical marks in a grid, and the grade appears as they type. Tabulation, GPA, merit position and failed subjects are worked out for the whole class at once.

Bangladesh board rules are the default: an F in a compulsory subject makes the result F, and the 4th subject adds its points above 2.0. Schools on another scale set up their own.

1	**Draft**	Subject teacher enters marks
2	**Submitted**	Sent for checking
3	**Approved**	Principal approves, marks lock
4	**Published**	Guardians notified, report cards ready

After approval, only the principal can reopen marks, and the old and new values are both kept.

Tahmid Hasan, Class 9 Science — Half-yearly exam 2026

Subject	CQ	MCQ	Total	Grade	Point
Bangla	52	26	78	A	4.00
English	85	–	85	A+	5.00
Mathematics	64	28	92	A+	5.00
Physics	49	25	74	A	4.00
Chemistry	55	26	81	A+	5.00
Biology	44	24	68	A-	3.50
ICT	30	58	88	A+	5.00
Higher Mathematics 4th subject, adds 2.00	51	25	76	A	4.00
GPA					**4.79**

Made for Bangladesh

Built for how schools here actually work

Global ERPs weren't designed for board-exam grading, Bangla report cards or taka in lakhs. This one was, and it's ready to grow beyond Bangladesh too.

আপনার স্কুল, আপনার ভাষায়।

বাংলা and English

Every screen, report card and receipt in both languages. Each person picks their own.

Board rules, built in

The GPA 5.0 scale, the 4th-subject bonus and per-component pass marks, with GPA 4.0, Cambridge and madrasa scales available.

Taka, the way it's written

Amounts in lakhs (৳১,২০,০০০), Bangla numerals on Bangla screens, and the Dhaka time zone.

Light on data

Pages are kept small so they open on a slow mobile connection and a mid-range Android phone.

Self-serve setup

From sign-up to first roll call in a day

Skip any step and come back to it later. Your school is ready to use as soon as you sign up.

01

Sign up

Your school's name, your email and an address like shapla.kampasy.com. No sales call.

02

Set up your year

Session, shifts, classes, sections, subjects and your grading scale, guided step by step.

03

Import students

Upload the Excel list you already keep instead of typing everyone in again.

04

Take attendance

Invite teachers by email. They can mark their first roll call the same day.

Every school gets a workspace of its own

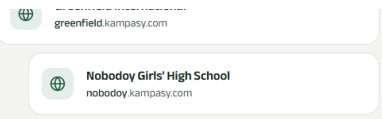

Kampasy serves many schools from one platform, but each works as

Shapla Model School
shapla.kampasy.com

Greenfield International

if it had its own software: its own address, its own data, and its own classes, grading, fee heads and roles. Standard and Premium schools can use their own domain, like erp.yourschool.edu.bd.

A teacher who works at two schools, or a guardian with children at different schools, keeps one login and sees each school separately.

Your school's records stay your school's

Fees and results are what guardians question most. Neither can change without anyone knowing.

Each school kept apart
Checked by the application and again by the database. No school can see another's data.

Access by role
Teachers see their classes, accountants see fees, guardians see only their own children.

Every change on record
Edited marks, fee adjustments and permission changes keep the old value, who changed it and when.

Receipts never rewritten
Numbered in order with no gaps. A cancelled receipt needs a reason and stays visible.

Pricing

Pay only for the students you have

One price per active student each month. Pay for the year and get two months free. Every school starts with 30 days of Standard, no card needed.

Free
Up to 100 students

৳0
free, with no time limit

To try it, or for a very small school
- Students and staff directory
- Daily attendance
- Notices and email
- Exams and results

Start free

Basic
Small schools

৳20
per student a month

Everything in Free, plus
- Fees, receipts and dues

৳55
per student a month

Everything in Standard, plus
- Two-factor sign-in for admins and accountants
- Priority support
- Transport, multi-branch and analytics as they arrive

Start free trial

Prices are in taka, with a small monthly minimum. SMS credits are prepaid. Add-ons for transport, hostel and homework can be bought on any plan once they launch.

FAQ

Questions principals ask first

What it costs, how setup works, and where your school's data lives. Something else on your mind? Write to us at **hello@kampasy.com**.

GETTING STARTED

How long does it take to get started? ×

Most schools take their first attendance the day they sign up. A setup wizard walks you through your session, classes, sections, subjects and grading scale, then you invite teachers and import students.

We keep our student list in Excel. Do we have to type it again? +

Do teachers need a computer? +

PLANS & BILLING

How does pricing work? +

Is the Free plan really free? +

Can guardians pay fees online? +

BANGLA & GRADING

- Is it available in Bangla? +
- We follow Cambridge, or we are a madrasa. Will the grading fit? +

YOUR SCHOOL'S DATA

- Is our school's data separate from other schools? +
- Can we use our own domain? +
- Who can see what? +

Start with one section tomorrow morning

30 days of Standard, free, with no card. Bring the rest of the school on when you're ready.

Prefer a walkthrough first? **Book a demo**

Your school's name

Shapla Model School

Your address will be **yourschool.kampasy.com**
